DETAILED ACTION

Response to Amendment

1. This action is responsive to the Amendment filed on 6 August 2007. Claims 56-60, 63-65, and 69 have been amended. Claims 1-55 and 66 are canceled. New claims 71-74 have been added. Claims 56-65 and 67-74 are pending in the application.

Response to Arguments

2. Applicant's arguments, see pages 8-9, filed 6 August 2007, with respect to claims 56-65 and 67-74 have been fully considered and are persuasive. The rejections/objections of 56-65 and 67-71 have been withdrawn.

Allowable Subject Matter

3. Claims 56-65 and 67-74 are allowed.

4. The following is an examiner's statement of reasons for allowance: The primary reason for the allowance of these claims is the inclusion of the limitation where a high refractive index boundary at the interface between the core and the photonic bandgap structure, the boundary having a thickness around the core such that, in use, light guided by the waveguide is guided in a transverse mode providing a F-factor of less than $0.23\mu\text{m}^{-1}$ for an operating wavelength of $1.55\mu\text{m}$, less than an equivalent F-factor scaled for a different operating wavelength or less than 0.7\AA^{-1} for structures having a

periodic cladding and a pitch Λ . The prior art does not teach or suggest this claimed limitation within a photonic bandgap structured optical waveguide.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
